PROJECT SUMMARY

Mountain Springs Ranch

basenjidog.net • github.com/snk923/mountain-springs-ranch

A recent website created for a basenji dog breeder. This site allows users to see who the breeder is, learn more about what type of dogs she breeds, and see current and past puppies.

JetAway

jetaway1.herokuapp.com • github.com/snk923/JetAway

An app created for users who want to travel, mingle, and explore the world!! Users are able to pick a travel destination based on a continent and be partnered with a top tier travel agent to take a trip of a lifetime.

Weather Dashboard

snk923.github.io/weather-dash • github.com/snk923/weather-dash

An application that uses the Open Weather Map APIs and moment.js to provide information about the current and five-day forecast based on the city search input.

NoteTaker

skolb-note-taker.herokuapp.com/notes • github.com/snk923/notetaker

An application called NoteTaker that can be used to write, save, and delete notes. This app uses an Express.js back end and saves and retrieves note data from a JSON file. Users are also able to delete notes as they need as well.
