PROJECTS

Mountain Springs Ranch, Front End Developer - React | JavaScript | [GitHub](#) | [Website](#) **2021 - Present**

- A website created for clients to access to learn who the breeder is, about what type of dogs are bred, and see up-to-date current and past puppies.

NoteTaker, Full Stack Developer - JavaScript | Express | [GitHub](#) | [Website](#) **2021**

- An application called Note Taker that can be used to write, save, and delete notes.
- Built with an Express.js back end and saves and retrieves note data from a JSON file.

Weather Dashboard, Full Stack Developer - JavaScript | API | [GitHub](#) | [Website](#) **2021**

- An application called Weather Dashboard utilizes a third-party API to retrieve weather data for cities.

EXPERIENCE

Pilgrim Bible, Full Stack Developer - React | TypeScript | Node | SQL | Figma | **2022 - Present**

- Helped set up the beginning stages of application development
- Contributed to UX Design and reusable components and schemas

Web Development Tutor, Freelance - React | JavaScript | Node | SQL | NoSQL | HTML | CSS | **2021 - Present**

- Assist students with activities, homework, or projects & research to answer all student questions
- Help encourage and guide students to problem solve and write clean and efficient code

BloomTech, San Francisco, CA - QA Coordinator - React | JavaScript | Google Suites | Git | **2022 - 2023**

- Lead Subject Matter Expert in the development of new Web Development curriculum and lesson plans
- Observed, coached, and collected data for over 50 web development, back-end development, and data science instructors to increase the quality of instruction for both content and instruction.

DSD Partners, Richmond, VA - Front End Engineer - Angular | TypeScript | Material UI | AWS | Figma | **2021 - 2022**

- Used Angular 12, Angular Material, and AWS to create new and update current UI/UX for current clients
- Worked directly with clients on developing new applications for their specific needs
- Collaborated with the dev team on different permutations to find the best solution possible
 - Developed and contributed to more than a third of front end code base
 - Partnered with UX Designer to help develop new style guides
